

Scent Cannon

Now available with our new
Photo Catalytic Oxidation System

KILLS GERMS - REMOVES ODORS - FRESHENS AIR

Scent Cannon uses a Hepa filter combined with our Photo-Catalytic Oxidation System to produce high quality, healthful air that has been scented while removing all pollution sources such as, germs, mold, bacteria and allergens as well as odors like cooking smoke, cigarette smoke, body odor and pet odors, catching 99% of them all. Studies show that indoor air can be up to 100 times more polluted than outdoor air. We make your indoor air as healthy as the great outdoors while making it smell great.

ScentAndrea just makes good marketing scents!
